Overview	Elegantly designed, with a brilliant color display, the space-saving unit has a powerful processor with generous memory enhancing customer interaction.	Designed from the ground up for all-purpose use, this wi-fi enabled unit connects with a tablet, smartphone or desktop to create a secure, smart, point of sale system.	Sleek and compact design empowers fast checkouts with minimum counter space. A large backlit keypad, LCD display and function keys allow comfortable, convenient interactions.	Intelligent certified magnetic stripe card reader encrypts payment card data as it swiped through the device providing tamper-resistant, secure payment acceptance.	Space-saving and reliable USB magnetic stripe card reader for secure, encrypted one-swipe payment acceptance for stationary point of sale.
